

Instructions for New Applicants for Title II Formula Grants

Follow the instructions in this section and assemble your application in the order indicated. Your project narrative, which consists of sections 4-9, may not exceed sixteen, single-sided pages using 12-point typeface and 1-inch margins.

Applications should be stapled or held together with a binder clip in the upper left corner. *Do not bind your application* or submit it in a folder. Your application must also be *three-holed punched on the left side*.

The original and 12, two-sided copies should be submitted to the CCJJ office by the deadline, Tuesday May 11, 2004 at 12:00 p.m.

Section 1: Cover Sheet

Complete the cover sheet. Be sure to include the implementing agency's name and address in Box 1. In Box 7, check "Initiate a New Program". Title II Formula Grant Funds cannot be used to support an existing program. Do **not** list any cash or in-kind match on the cover sheet. Any information on supplemental funding may be included in your Budget Matrix and Budget Narrative.

Section 2: Program Category Checklist

Follow the instructions on the form.

Section 3: Standard Project Descriptors

Follow the instructions on the form.

Section 4: Project Summary

Provide a **one-page** overview of your proposed project. Attach this summary immediately after Section 3.

Section 5: Problem Statement (20 points)

Define and describe the problem that your project intends to address. Document the problem in a manner that allows for measurement of its scope before, during and after project activity. *Statistical information from the past three years is necessary.*

Address the following questions:

- What is the specific problem in your jurisdiction and how does it relate to the project priorities outlined in the RFP? Why does this problem exist in your area?

- What or who is experiencing the problem (an area of the community, a segment of the juvenile justice population, etc.)? Provide information about your target population.
- Is this problem related to specific crimes or is it a system-related problem?
- How does this problem affect the disproportionate numbers of minorities in the juvenile justice system?
- Why is federal funding needed? What are the current gaps in the system that are preventing this problem from being addressed?

Section 6: Target Population (10 points)

Follow the instructions on the form. *Projects must show culturally competency and sensitivity when providing direct services to minorities.* Projects must demonstrate extensive knowledge of the barriers that clients face and show that they are appropriately addressed and removed. Projects must also ensure staff's cultural competency and demonstrate extensive knowledge of specific cultural characteristics of the target population

Section 7: Project Goals and Objectives (20 points)

Goals and objectives should be directly related to the Problem Statement. Project goal(s) describe what you expect your project to achieve when it is completed. In two or three sentences, clearly describe the LONG-TERM outcomes or societal impact you expect to achieve by completing this project. Goals need to be both realistic and achievable. If your goals are met, the project should have a positive affect on the targeted problem.

Examples of Goals

- Improve juveniles' compliance with court orders.
- To increase community safety by sharing information about serious habitual offenders.
- To enhance the competence of juveniles in the juvenile justice system through educational and vocational programming.

Project objectives identify what your agency will do to reach the project goals. Describe the SHORT-TERM results produced by this project that together will lead to the accomplishments of this goal. Objectives are statements about what specific changes in the participants or community the program will bring about in order to fulfill its goals. Objectives must be clear, realistic, measurable and relate to the Problem Statement. Make precise statements of what you hope to accomplish during the life of the project. The objectives will be used to judge progress and the success or failure of your project.

Examples of Objectives

- Reduce by 10% the number of juveniles who violate their probation agreements.
- Provide a 10-week behavioral skills course for 25 juvenile offenders each quarter.
- Re-arrests of offenders in this program will be reduced by 25%.

Section 8: Performance Measures (15 points)

Every application must have an acceptable plan to gather, store, analyze and present performance measures before funds will be awarded. Performance measures explain how you plan to measure the Project Objectives. Organize this information so that you can compare your objectives with your actual accomplishments. Explain your evaluation methods and how data will be collected.

Your evaluation plan must also state that you will participate, if applicable, in the evaluation study being conducted by the University of Utah Criminal and Juvenile Justice Research Consortium. Up to 10% of your grant budget may be devoted to evaluation.

Example of Performance Measures

Objective: provide a 10-week behavioral skills course for 25 juvenile offenders each quarter.		
PERFORMANCE INDICATOR	BASELINE DATA	TIME FRAME
Number of juveniles served each quarter.	Zero. No participants to date.	Number of completers will be reported quarterly.
Number of training hours provided.	Zero. None provided to date.	300 hours of training by end of grant year. To be reported quarterly.
Completion rate (number of youth registered compared to number of youth completing program).	Zero. No participants to date.	Measured and reported quarterly.

Section 9: Project Design and Management (25 points)

Project Activities

Describe the general approach to be used during your project. Explain how your project will address the problem you described. Explain what will make your program work and cite relevant research to show that your program strategy is effective. Explain each of the various steps or phases of the project, including a description of how the proposed work will be organized.

Project Staffing

Identify existing staff that will be directly involved in your project and include their qualifications. Identify any new staff, their job descriptions and qualification. Do not attach resumes. Identify any consultants that will be hired. Consultant resumes must be included and labeled as "Attachment C."

If you are using volunteers, identify how many will be used, how they will be recruited, how they will be trained and their role in the project.

Collaboration

Describe applicable collaborative efforts with other organizations in your community. Each listed organization must provide a letter of participation (Attachment A). Programs that fail to demonstrate active collaboration with other agencies or organizations will not be funded.

Timeline

Include a timeline of steps needed to implement the project. The timeline should identify program activities for the entire grant year (July 1, 2004 to June 30, 2005).

Section 10: Budget Matrix and Narrative (10 points)

Complete the Budget Matrix based on information found in the Budget Guidelines. The WordPerfect version of the Matrix will automatically add each column for you. Highlight the columns you want calculated (including the total or subtotal column), right click on your mouse button, and select “QuickSum”. The Word version of the Matrix will need to be calculated manually.

Following the Budget Matrix, attach a detailed budget narrative. Review the Budget Guidelines document for specific budget narrative requirements. The narrative should clearly identify grant expenses.

When planning your budget, remember to include the costs associated with participating in the University of Utah’s evaluation study. Acceptable costs include staff time to administer and mail the surveys; postage costs; and mailing supplies expenses.

There is no guarantee that continuation funds will be available in the future. However, should the Federal Government provide sufficient money, it is the intent of the Utah Board of Juvenile Justice to provide continuation funds as follows: Government entities may receive three years of step-down funding (100%, 75% and 50%). Qualified CBOs may receive four years of step-down funding (100%, 90%, 75% and 50%). At the end of your narrative, it is critical to explain your plan for finding other sources of funding to support your project when Title II funds decline and when you are no longer eligible for Title II funding.

Conclude this section with information regarding your organization’s fiscal officer, including phone number and contact information.

Attachments

Attachment A: Letters of Participation.

The letters should detail the specific contribution the agency/organization is providing for your project. These should **not be letters of support**.

Attachment B: Denial of Funding Letter

Include this letter only if applicable.

Attachment C: Consultant Resume(s)

Include only if applicable.

Appendices

Complete the applicable Appendices and obtain original signatures. Appendices are attached only to your original grant application. ***Do not include them with your copies.***
